Objective

To land a challenging job in a reputable company so I may broaden my knowledge, skills, and learnings. Obtain a responsible career path that will allow me to make the most of my education and experience while significantly contributing to the organization's growth.

Work Experience

Frontend developer

July 2023-Present

Harshly Education and Skills Technologies Pvt Ltd | Noida

- Developed interactive and user-friendly web applications using React.js, Next.js enhancing the overall user experience.
- Integrated RESTful APIs to fetch and display dynamic data, creating dynamic and real-time application features.
- Collaborated with backend developers to design and implement API endpoints, ensuring seamless frontend-backend integration.

UI Developer

March 2023 - June 2023

Aqusag technology | Noida

- Developed and maintained responsive web applications using Html, css, bootstrap, jQuery, tailwind css ensuring optimal user experiences across various devices and screen sizes.
- Collaborated closely with UX/UI designers to translate wireframes and mockups into interactive and visually appealing interfaces.
- Implemented state management using Redux, effectively centralizing application data and simplifying data flow for complex components.

Project

Easyhaionline Website

The project I undertook involved creating an Ed-tech website using cutting-edge technologies like Next.js, Node.js, and Redux Toolkit, Tailwind CSS.

I created various dynamic modules like courses, live lecture, doubts, assignment, test, blogs. It's all dynamically created by students and teachers and the admin.

Technology: Next.js, Redux Toolkit, HTML, Tailwind CSS, Node.js, MongoDB

Assiments Blogging Website

Created a visually appealing and responsive Blogging website with a modern and clean design, highlighting my professional information and work.

In this website I add multiple user login and create blog and show on the page that see all login user and Blog creator also edit and delete blog at any time.

Technology: React.js, HTML, CSS, Tailwind CSS, Firebase, Firebase database
